Software Developer Intern
HackYourFuture   📅 2024 - 2025   📍 Amsterdam, Netherlands
🔗 www.hackyourfuture.net

- Gained hands-on experience with HTML, CSS, JavaScript, React, Node.js, and MySQL.
- Built and deployed real-world projects individually and in teams using Git, GitHub, and Agile methodologies.
- Practiced problem-solving, code reviews, and collaborative development through pair programming and group assignments.

Accountant
Azar Morgh   📅 03/2018 - 12/2022   📍 Tabriz

- Worked as an **Accountant** at Azar Morgh, a large poultry company.
- Administered invoicing, financial reporting, and payment processing.
- Used **Rahkaran** accounting software for daily financial operations.

EDUCATION

Web Development
HackYourFuture   📅 11/2024 - 06/2025

Bachelor's Degree in Industrial Engineering
Payame Noor University   📅 09/2011 - 05/2016

FULL STACK PROJECTS

Community Item Sharing App

SharingWithUs is a web app that helps people share and borrow items in their community. It includes user profiles and item listings to make borrowing easy.

- Built the frontend using **React** and **React Router**
- Created a backend using **Node.js**, **Express**, and **MongoDB**
- Added user registration and login with **JWT token**
- Implemented **item listing**, **filtering**, and **borrowing** system
- Used **SweetAlert2** for clean user messages
- Followed good GitHub practices like using branches and writing a clear README file

Tic-eng.com

Tic is a bilingual (English & Persian) company website for an engineering business offering **Testing, Inspection, and Certification (TIC)** services. Designed with a **modern, responsive UI/UX** to present services and enable online client interaction.

- Built **frontend** using **React** and **React Router**.
- Created the **backend** with **Node.js**, **Express**, and **MongoDB**.
- Added user **registration** and **login** with **JWT** token.
- Added **service request system**: requests saved in **DB**, shown in admin **dashboard**, and forwarded via email (**Nodemailer**).
- Integrated **file uploads** (**Multer** + **Cloudinary/AWS**).
- Deployed frontend on **Netlify**, backend on **Render**, connected to custom **domain**: **www.tic-eng.com**.
- Set up professional **private email system** for automated client communication.

SUMMARY

I'm a motivated and thoughtful team player who enjoys working with others, sharing ideas, and solving problems together. I care deeply about doing meaningful work, supporting people around me, and staying open to feedback and learning. My positive attitude, curiosity, and respect for different perspectives help me grow and contribute in any team environment.
